

# Lowering Costs Through Unique Solutions

## AMERIGLOBE

### Free-Standing Drum Bag

Drums are heavy, have a high warehouse cost, and waste shipping weight. AmeriGlobe's Drum bags do not have any of those issues. Weighing less than three pounds, it is a real light weight package even though it holds the same volume as a drum. This freestanding flexible container can be filled without special equipment. Drum bags are man portable; they can even be discharged by hand.

Because the Drum bag is flexible it can be collapsed when empty and palletized so that 200 fit in a four foot square footprint. There is no need for constant forklift traffic to keep your filling area supplied with drums. Just move one pallet of Drum bags and you are set for the next 200 cycles.

Since our bags are custom manufactured to your needs, you do not have to purchase an oversized container. We make the size Drum bag you need each time.

- Reduced space
- Reduced cost
- Reduced labor
- No special fill equipment
- Sized to fit your product
- Better package

Most companies claim to offer better bag prices. AmeriGlobe's systematic approach lets us find ways to save you money. Our Drum bag offers you warehouse and labor savings that can make a real difference in your bottom line. Call AmeriGlobe today so we can work to find the best options for you.
