

# Lowering Costs Through Unique Solutions

## **AMERI**GLOBE *Drum Bags*

Barrels are heavy, space wasting containers that typically require special attachments to empty. They have to be moved using pallets or clamps. AmeriGlobe designed a better package. Empty Drum Bags take a fraction of the warehouse space allowing you to use your warehouse dollars for something else. Drum Bags can be moved with a standard forklift, with or without pallets, eliminating the need to buy extra attachments. When it is time to empty the Drum Bag, you can access the product from the top or let your product drain from the bottom.

- Reduced warehousing costs
- Reduced disposal costs
- Recyclable
- Easily emptied

Most companies claim to offer better bag prices. AmeriGlobe's systematic approach lets us find ways to save you money. Whether you need the Drum Bag or a solution we can design for you, call us today to see how we can put our innovations to work for you.
